MIRA - BHAINDAR MUNICIPAL CORPORATION

WATER SUPPLY DEPARTMENT

Name of Work- :- Supply of water tanker from Bhaindar (E) Fatak ESR or any other ESR location suggested by the Municipal Corporation to supply water through tankers in MBMC area.

DETAILED SCOP OF WORK

1. Scope of Work

The work shall comprise providing water tankers of the required capacity, along with drivers, cleaners, supervisors, fuel, maintenance, GPS/mobile tracking arrangements, hose pipes, pump sets and all necessary manpower, machinery, equipment and accessories for transportation and distribution of water from designated MBMC filling points/sources to various locations within the Mira-Bhayander Municipal Corporation area and as directed by the Engineer-in-Charge or authorized officer.

The tanker services shall be utilized for:

A. Potable Water: Supply of potable water to affected societies, residential areas, slums, institutions, public places and other locations as directed by MBMC during normal/emergency water-supply requirements.

B. Treated Non-Potable Water: Transportation and supply of treated STP/recycled water for construction activities, gardens, parks, landscaping, road washing, dust suppression, municipal works and other authorized non-potable purposes.

The Contractor shall strictly follow the instructions of MBMC regarding the source, type of water, destination, timing, number of tankers and number of trips.

2. Number of Tankers and Trips

- The Contractor shall engage the required number of tankers daily and shall complete the required number of trips as directed by the Engineer-in-Charge.
- MBMC shall have the right to increase or decrease the number of tankers and/or trips according to actual requirements.
- The Contractor shall not be entitled to claim compensation, idle charges, loss of profit or any other amount due to reduction or non-utilization of tankers/trips.

3. Additional Tankers

- The Contractor shall provide additional tankers whenever required by MBMC.

- The Contractor shall submit an undertaking on stamp paper of Rs.100/- confirming that additional tankers shall be made available as and when demanded by MBMC.

- Failure to provide additional tankers within the stipulated time shall constitute a breach of contract and MBMC shall be entitled to make alternative arrangements at the risk and cost of the Contractor.

4. Water Sources

The Contractor shall obtain water only from filling points/sources specifically authorized by MBMC.

Authorized sources may include:

1. MBMC potable-water tanker filling points;
2. Treated-water storage tanks; and
3. Any other source specifically authorized by MBMC.

The Contractor shall not obtain water from any private well, borewell, private tanker filling station, unauthorized STP, natural source or any other source without prior written permission of MBMC.

5. Potable Water

- Potable water shall be supplied only to locations authorized by MBMC.

- The Contractor shall ensure that potable water is not contaminated during filling, transportation or distribution.

- Potable water shall not be mixed with treated non-potable water or any other source.

- There will be always separate numbers of tanker for potable and non-potable water as per requirement.

6. Treated Non-Potable STP Water

MBMC may direct the Contractor to transport treated non-potable water from designated STPs, tertiary treatment plants or treated-water storage facilities.

Such treated water may be used for:

- construction activities;
- curing of construction works wherever technically permissible;
- gardens and parks;
- landscaping;

- road washing;
- dust suppression;
- municipal cleaning;
- public works;
- excavation/earthwork activities;
- other non-potable municipal purposes; and
- any other purpose authorized by MBMC.

Treated non-potable water shall not be used for drinking, cooking, bathing or any potable/domestic consumption.

7. Identification of Non-Potable Water Tankers

Where directed by MBMC, tankers carrying treated non-potable STP water shall be distinctly identified by colour coding, marking or board.

The tanker shall prominently display:

"TREATED NON-POTABLE WATER – NOT FOR DRINKING"

And as per policy if MBMC

or such other wording/identification as prescribed by MBMC.

8. No Mixing of Potable and Non-Potable Water

- Potable water and treated non-potable water shall not be mixed under any circumstances.
- A tanker used for treated non-potable water shall not be used for potable water unless it is properly cleaned, disinfected and approved by the Engineer-in-Charge.
- Similarly, a potable-water tanker shall not be used for treated non-potable water unless permitted by MBMC.

9. Tanker Capacity

- The capacity of each tanker shall not be less than 10,000 litres, unless otherwise specified in the BOQ.
- MBMC shall have the right to verify the actual carrying capacity of any tanker at any time.
- A tanker found having capacity less than the declared/required capacity may be rejected.

10. Tanker Documents

Every tanker deployed shall be roadworthy and shall possess valid:

- Registration Certificate;
- Fitness Certificate, wherever applicable;
- Road Tax clearance;
- Permit, wherever applicable;
- Valid motor vehicle insurance;
- PUC certificate, wherever applicable; and
- any other statutory document required under applicable laws.

Copies of valid documents shall be submitted to MBMC before deployment and whenever renewed.

11. Tanker Condition

- The tanker shall be structurally sound, completely water-tight and free from leakage.
- The inner portion of the tanker carrying potable water shall be rust-free, clean, hygienic and suitable for transportation of potable water.
- All valves, taps, delivery manifolds, hose connections and fittings shall be maintained in proper working condition.

12. Cleaning of Tankers

- Tankers used for potable water shall be thoroughly cleaned and washed at least once every week and additionally whenever directed by MBMC.
- The Contractor shall maintain a tanker-wise cleaning register.
- Tankers used for treated non-potable water shall also be maintained in clean and serviceable condition.

13. Prohibited Use of Tankers

Tankers deployed under this contract shall not be used for carrying:

- sewage;
- wastewater;
- sludge;
- chemicals;
- petroleum products;
- hazardous substances;

- garbage;
- construction debris; or
- any material capable of contaminating the tanker.

A tanker found unsuitable for water transportation shall immediately be withdrawn and replaced by the Contractor.

14. Delivery Manifold

- Each tanker shall be provision with a suitable delivery manifold having at least four to eight taps of 40 mm diameter, suitably arranged so that maximum persons can collect water simultaneously and wastage of water is minimized.

- For construction, garden and other non-potable applications, MBMC may permit suitable hose/pump delivery arrangements instead of the manifold arrangement.

15. Flexible Hose Pipe

- Each tanker shall be provided with a flexible hose pipe of minimum 70-100 mm diameter and 50 metres length, suitable for filling PVC/storage tanks and other authorized purposes.

- Where required, the Contractor shall provide a suitable diesel/electric pump set along with all necessary fittings and accessories.

- No separate payment shall be made for the hose pipe, pump set or related arrangements unless specifically provided in the BOQ.

16. Delivery to Construction Sites

For supplying treated non-potable water to construction sites, the Contractor shall provide suitable hose pipes, pump sets, valves and fittings for efficient delivery as directed by MBMC.

The Contractor shall take adequate precautions to prevent water wastage.

17. Supply to Gardens and Parks

- For supply of treated non-potable water to gardens, parks and landscaped areas, the Contractor shall provide suitable hose pipes and pumping arrangements as required.

- The Contractor shall ensure efficient distribution and minimum wastage of water.

18. Direct Delivery

- After filling, the tanker shall proceed directly to the destination specified by MBMC.

- The tanker shall not be diverted to any other location or used for any unauthorized purpose.

19. Prohibition of Transfer of Water

Once a tanker has been filled, the Contractor shall not transfer water to:

- another tanker;
- private vehicle;
- small tanker;
- storage tank;
- private agency; or
- any other person/entity

except where specifically authorized by MBMC.

20. Unauthorized Sale or Supply

- The Contractor shall not sell, exchange, divert or supply MBMC potable water or treated non-potable STP water to any unauthorized person, society, builder, contractor, agency or other party.

- Any such act shall be treated as a serious breach of contract.

21. Driver and Cleaner

The Contractor shall provide experienced, trained and disciplined drivers and cleaners.

Every driver shall possess a valid driving license appropriate for the tanker.

The Contractor shall ensure that drivers:

- do not drive under the influence of alcohol or intoxicants;
- do not drive recklessly;
- follow traffic and safety rules;
- do not carry unauthorized passengers;
- follow MBMC instructions; and
- maintain proper conduct with the public.

MBMC may direct replacement of any driver whose performance or conduct is found unsatisfactory.

22. Driver Under Influence of Alcohol

- If any tanker driver is found driving or performing duty under the influence of alcohol or any intoxicating substance, the driver shall be immediately removed from duty.
- The Contractor shall provide a replacement driver without delay.
- Such occurrence may attract penalty and further contractual action.

23. Emergency Service

- The Contractor shall provide tanker services during emergencies, including nights, Sundays and public holidays, whenever directed by MBMC.
- Emergency water-supply requirements shall be attended on priority.

24. Supervisor/Representative

- The Contractor shall appoint a responsible supervisor/authorized representative who shall remain available to the Engineer-in-Charge or authorized MBMC officer round the clock for coordination and emergency services.
- The supervisor shall have authority to arrange replacement tankers, drivers and manpower immediately when required.

25. Vehicle Breakdown

- In case of breakdown, accident, mechanical failure or any other defect in a tanker, the Contractor shall immediately provide a replacement tanker of equal capacity.
- No payment shall be made for trips not completed.

---

26. Vehicle Maintenance

All expenses relating to maintenance and operation of the tankers shall be borne by the Contractor, including:

- fuel;
- lubricants;
- repairs;
- tyres;
- batteries;

- servicing;
- spare parts;
- insurance;
- washing;
- cleaning; and
- all other maintenance expenses.

27. Daily Deployment

- The Contractor shall ensure that the required number of tankers are available at the designated filling point at the time prescribed by MBMC.

- The Contractor shall ensure completion of the required trips every day.

28. Daily Trip Report

The Contractor shall submit a daily tanker operation report in the format prescribed by MBMC.

The report shall include:

1. Date;
2. Tanker registration number;
3. Tanker capacity;
4. Driver name;
5. Type of water – potable/non-potable;
6. Source/filling point;
7. Filling time;
8. Destination;
9. Purpose of supply;
10. Number of trips;
11. Delivery time;
12. GPS details;
13. Trip/receipt number;
14. Delivery acknowledgement; and
15. Other details as directed by MBMC.

29. Separate Records for Potable and Non-Potable Water

- Separate records shall be maintained for potable water and treated non-potable STP water.

- The Contractor shall maintain source-wise and tanker-wise records.

30. GPS Tracking

Each tanker shall be provided with an Android OS smartphone/GPS tracking device having GPS and minimum 4G/5G connectivity or such other tracking arrangement approved by MBMC.

The GPS shall remain operational during the entire duty period.

The Contractor shall ensure that:

- GPS remains switched on;
- location services remain active;
- device remains charged;
- correct tanker and driver are mapped;
- device is not tampered with; and
- GPS data is made available to MBMC whenever required.

31. GPS Tampering

- Deliberate switching off, removal, damage, manipulation or tampering with GPS/mobile tracking equipment shall be treated as a serious violation.

- MBMC may impose penalty and take further contractual action for repeated violations.

32. Digital Trip Verification

- MBMC may introduce QR code, OTP, mobile application, geo-tagging, electronic receipt, photograph, biometric acknowledgement or any other digital mechanism for verification of tanker trips.

- The Contractor shall comply with such system without claiming additional payment.

33. Delivery Acknowledgement

The Contractor shall obtain acknowledgement from:

- authorized society representative for potable-water supply;
- authorized construction-site representative for construction water;
- authorized garden/park representative for garden water; or
- MBMC officer/representative as directed.

The acknowledgement shall contain tanker number, date, destination and trip details.

34. Photographic Evidence

- Where directed by MBMC, the Contractor shall submit geo-tagged photographs of the tanker at the filling point and destination.

- The tanker registration number shall be clearly visible in the photograph wherever practicable.

35. Computer and Computer Operator

- The Contractor shall provide one computer with internet connectivity and one computer operator at the location specified by MBMC, wherever required.

- The operator shall maintain daily tanker deployment, trip, GPS and delivery records in the prescribed format.

- No separate payment shall be made for this arrangement.

36. Registers and Records

The Contractor shall maintain:

1. Tanker deployment register;
2. Daily trip register;
3. Filling-point register;
4. Delivery register;
5. GPS register/data;
6. Tanker cleaning register;
7. Vehicle maintenance register;
8. Driver/cleaner attendance register;
9. Complaint register;
10. Replacement tanker register; and
11. Other records prescribed by MBMC.

All records shall be produced for inspection whenever required.

37. Inspection by MBMC

- The Engineer-in-Charge or any authorized officer shall have the right to inspect any tanker, filling point, delivery location, records, GPS system, driver and other arrangements at any time.

- The Contractor shall provide full cooperation.

38. Water Quality

- The Contractor shall not alter, dilute, contaminate or mix the water supplied by MBMC.

- Treated STP water shall be collected only from the designated treated-water outlet/storage facility.

- MBMC may conduct water-quality testing whenever considered necessary.

39. Responsibility for Public Property

The Contractor shall be responsible for any damage caused to:

- roads;
- footpaths;
- pipelines;
- buildings;
- compound walls;
- vehicles;
- municipal infrastructure;
- private property; or
- any other property

due to negligence, improper operation, accident or any act/omission of the Contractor, his employees or vehicles.

The cost of repair/reinstatement shall be recovered from the Contractor.

40. Accident, Injury and Death

- The Contractor shall be directly responsible for all claims, compensation, medical expenses, damages, liabilities and statutory obligations arising from any injury, accident or death caused to any person, animal or third party in connection with the execution of the work, to the extent attributable to the Contractor under applicable law.

41. Labour and Statutory Compliance

- The Contractor shall comply with all applicable labour laws, minimum wages, social-security provisions, safety regulations, Motor Vehicle laws, insurance requirements and other statutory requirements.

- The Contractor shall be responsible for payment of wages and all statutory dues of his employees.

42. Insurance

- The Contractor shall maintain valid insurance for all tankers throughout the contract period.

- All statutory insurance requirements shall be complied with.

43. Roadworthiness

- All tankers shall be maintained in roadworthy condition and shall comply with applicable Motor Vehicle Department requirements.

- MBMC may reject any tanker that is unsafe or unsuitable for operation.

44. Rate Per Trip

The quoted rate per trip shall be inclusive of all expenses including:

- driver;
- cleaner;
- supervisor;
- fuel;
- lubricants;
- maintenance;
- repairs;
- tyres;
- insurance;
- taxes/statutory charges;
- GPS/mobile device;
- communication;
- hose pipe;
- pump set;
- fittings;
- cleaning;
- manpower; and
- all other expenses necessary for satisfactory execution of the work.

No additional payment shall be made unless specifically provided in the BOQ.

45. Payment

Payment shall be made only for the actual number of trips completed, verified and certified by the Engineer-in-Charge/authorized officer.

Verification may be based on:

Filling Point Record + Authorized Trip Record + GPS Data + Delivery Acknowledgement + Digital/Photographic Evidence, wherever applicable.

46. No Payment for Unauthorized Trips

- No payment shall be made for unauthorized, duplicate, false or unsupported trips.
- MBMC shall have the right to reject any trip for which satisfactory evidence is not available.

---

47. Failure to Engage Tanker

If the Contractor fails to engage the required tanker or fails to complete assigned trips, MBMC shall be at liberty to arrange water supply through any other agency.

Any excess expenditure incurred for such alternative arrangement shall be recovered from the Contractor's running bill, security deposit or any other amount payable to the Contractor.

48. Non-Requirement of Tankers

- If a tanker is not required, MBMC may reduce or cancel its deployment.
- No compensation, idle charges, loss of profit or any other claim shall be entertained for such non-deployment.
- In emergency situations, MBMC may modify tanker requirements at short notice.

49. Water Wastage

- The Contractor shall take all necessary measures to prevent wastage during filling, transportation and delivery.
- Leakage from the tanker, hose, tap, valve or manifold shall be immediately repaired.

50. Tanker Filling Point Discipline

The Contractor's staff shall maintain proper discipline at MBMC tanker filling points.

The tanker point premises shall not be used for:

- bathing;
- washing clothes;

- washing vehicles;
- parking unauthorized vehicles;
- storage of materials; or
- any activity other than authorized tanker-water-supply work.

51. Municipal Duty Board

A clearly visible board bearing:

"ON MUNICIPAL DUTY – MBMC WATER SUPPLY"

along with the tanker identification number shall be fixed at the front and rear of each tanker.

For non-potable water tankers, the prescribed "TREATED NON-POTABLE WATER – NOT FOR DRINKING" marking shall also be displayed.

52. Tanker Identification

- Each tanker shall prominently display its registration number and MBMC identification number, wherever allotted.
- No tanker shall be substituted without approval of the Engineer-in-Charge.

53. Approved Tanker List

- Before commencement of work, the Contractor shall submit a complete list of tankers proposed for deployment along with relevant vehicle documents.
- Only tankers approved by MBMC shall be permitted for the work.

54. Replacement Tanker

Any replacement tanker shall satisfy all tender conditions and shall be submitted for inspection/approval of MBMC before deployment, except in emergency situations where immediate replacement is necessary.

55. Public Complaints

The Contractor shall promptly attend complaints regarding:

-non-delivery;
-delayed delivery;
-short supply;

-unauthorized discharge;
-water leakage;
-dirty tanker;
-driver behaviour;
-water wastage; and
-other service deficiencies.
-Repeated complaints may result in replacement of the tanker/driver and/or penalty.

56. No Unauthorized Subcontracting

- The Contractor shall not assign or subcontract the whole or substantial part of the work without prior written permission of MBMC.

- Even if permission is granted, the Contractor shall remain fully responsible for the work.

57. Work Experience Certificate

The Tenderer shall submit a work experience certificate for similar work, duly signed by an Executive Engineer or officer of equivalent rank, as specified in the tender eligibility conditions.

58. Income Tax and Other Statutory Documents

The Tenderer shall submit all certificates/documents required under the tender, including valid income-tax/statutory compliance certificates wherever applicable.

60. Taxes and Deductions

Income Tax, GST/TDS and all other applicable taxes and statutory deductions shall be deducted from bills/security deposit or other payments as per prevailing Government rules.

61. Firm Rate

The rate quoted by the Contractor and accepted by MBMC shall remain firm throughout the contract period and shall not be changed due to increase in fuel price, labour charges, maintenance expenses, inflation or any other reason, unless specifically provided otherwise in the tender.

62. Agreement

The successful Tenderer shall execute an agreement on requisite stamp paper within 10 days from the date of acceptance letter, or within the period prescribed by MBMC. Failure to execute the agreement within the stipulated period shall attract action as per applicable rules.

63. Commencement of Work

The successful Tenderer shall commence the work from the date specified in the Work Order.

64. Penalty

MBMC may impose penalty for failure to comply with tender conditions.

- Penalty may be imposed for:
- failure to provide required tanker;
- failure to complete assigned trips;
- unauthorized discharge;
- water diversion/theft;
- unauthorized water source;
- GPS tampering;
- short supply;
- delayed delivery;
- dirty/unhygienic tanker;
- leakage;
- unauthorized tanker;
- unauthorized driver;
- failure to attend emergency service;
- false trip records;
- non-submission of daily reports; and
- any other service deficiency.

65. PENALTY SCHEDULE

1. Failure to provide required tanker - Rs.2,000/- per tanker per day
2. Failure to complete assigned trip - Rs.2,000/- per trip arrangement cost
3. Unauthorized discharge at another location - Rs.2,000/- per occurrence
4. Unauthorized transfer to another tanker/vehicle - Rs.2,000/- per occurrence
5. Unauthorized use of private well/borewell/source - Rs.5,000/- per occurrence
6. GPS deliberately switched off/tampered - Rs.2,000/- per occurrence
7. GPS/mobile device not provided or non-functional - Rs.1,000/- per tanker per day
8. Tanker found dirty/unhygienic - Rs.2,000/- per occurrence
9. Leakage from tanker/hose/valve - Rs.1,000/- per occurrence
10. Unauthorized tanker deployed - Rs.2,000/- per occurrence
11. False/manipulated trip report - Rs.5,000/- per occurrence
12. Failure to submit daily report - Rs.500/- per day

13. Failure to attend emergency duty - .5,000/- per occurrence

14. Unathorized sale/diversion of municipal water - 10,000/- per occurrence

15. Driver found under influence of alcohol/intoxicant -Immediate removal + further contractual action

Penalty shall not restrict MBMC's right to recover actual financial loss or excess expenditure caused by the Contractor.

66. Water Theft/Diversion

- If the tanker driver fails to discharge water at the place mentioned in the authorized receipt/trip instruction, or if water is diverted or discharged at any unauthorized location, it shall be treated as unauthorized use/diversion of municipal water.

- The Contractor shall be liable for penalty, recovery of loss and further contractual action.

67. Prohibition on Sale of Water

- The Contractor shall not sell or otherwise commercially dispose of potable water or treated STP water supplied by MBMC.
- Any such act shall be considered a serious breach of contract.

68. Blacklisting/Debarment

The Contractor may be liable for termination and/or blacklisting/debarment in accordance with applicable Government/MBMC rules in cases of serious or repeated breach, including:

- water theft/diversion;
- unauthorized sale;
- submission of false records;
- manipulation of GPS;
- fraudulent claims;
- repeated failure to provide tankers;
- serious safety violations; or
- other serious misconduct.

69. Termination of Contract

MBMC shall have the right to terminate the contract in accordance with the applicable contractual procedure if:

- work is not satisfactory;
- required tankers are repeatedly not provided;
- assigned trips are repeatedly not completed;
- unauthorized diversion/theft is detected;
- false records are submitted;

- GPS is deliberately manipulated;
- serious hygiene/safety violations occur;
- Contractor commits material breach of contract; or
- any other condition warranting termination under the agreement occurs.

70. Alternative Arrangement

- In case of failure/refusal by the Contractor to provide tanker services, MBMC may arrange the required service through another agency.
- The additional expenditure incurred by MBMC shall be recovered from the Contractor.

71. Extension of Contract

If considered necessary in the interest of public service and permitted under applicable procurement rules, MBMC may extend the contract for the prescribed period on the same or revised terms and conditions, subject to approval of the competent authority.

72. No Claim for Reduction in Work

The Contractor shall not be entitled to claim compensation, damages, idle charges, loss of profit or any other amount due to reduction in tanker deployment, reduction in trips or temporary non-requirement of services.

73. Priority Water Supply

- During emergency/water-shortage conditions, MBMC shall have the right to prioritize tanker deployment.
- Potable water supply to affected residential areas and essential institutions shall be prioritized as directed by the competent authority.
- Treated STP water shall be utilized for construction, gardens, road washing and other suitable non-potable purposes wherever directed, thereby conserving potable water.

74. Water Conservation and Reuse

- The Contractor shall cooperate with MBMC in promoting the reuse of treated STP water.
- The Contractor shall ensure that treated non-potable water is transported and utilized efficiently for authorized non-potable purposes, reducing unnecessary use of potable water.

75. Compliance with Applicable Laws

The Contractor shall comply with all applicable Central Government, Government of Maharashtra, Motor Vehicle Department, labour, safety, environmental, municipal and other statutory requirements.

76. Final Responsibility of Contractor

The Contractor shall remain fully responsible for satisfactory execution of the entire tanker water-supply work throughout the contract period.
The Contractor shall be responsible for deployment, operation, maintenance and replacement of tankers, drivers, cleaners, supervisors, GPS devices, hose pipes, pump sets and all other resources required for execution of the work.

The commissioner shall be entitled to add additional conditions or modify any conditions which are necessary, in the interest of corporation.

ACCEPTANCE OF TENDERER

ACCEPTANCE OF TENDERER

Acceptance OF the tender will rest with the honorable Commissioner of the Mira-Bhayander Municipal Corporation who reserves the right to reject any or all tenders without assigning any reasons thereof the person whose tender may be accepted shall have to enter into agreement to do so, and successful tenderer will have to bear necessary stamp duty along with charges of stamp papers of value of Rs 100.00 for entering into an agreement. In the event of the failure of tenderer to sign the agreement within the stipulated time, the earnest money paid by him, shall stand fortified and the letter on the intent of acceptance of the tender shall be considered as withdrawn. His registration is also liable to cancelled in this event. The earnest money paid by him in the form of FDR or any scheduled Bank in the name of COMMISSIONER MIRA BHAYANDER MUNICIPAL CORPORATION for the period of 12 months.
